

Pre-assembled and pre-cabled in different aperture to highlight the processes

LED Signal Towers

- Modular and monolithic design are available.
- Patlite's extensive product range cover highly advanced LED signal towers for industrial automation and security applications.
- Mechanical and electrical durability is a key feature of signal towers since machine operators rely on the signals they show. LED modules together with an impact and heat resistant ABS resin housing are the elements to give clear guidance of the operator for a long service life.
- Different aperture for different application (from 30 mm till 70 mm)
- This signal towers are designed for use in different environments till a protection up to IP 65. That makes them suitable for the widest possible range of applications in general industries.
